PROFESSIONAL SUMMARY

Database Administrator with hands-on experience in Oracle 19c and PostgreSQL database administration, SQL performance tuning, database health monitoring, backup and recovery, and production troubleshooting. Experienced in analyzing execution plans, indexing strategies, storage and database logs, RMAN backup and recovery, data migration using Oracle Data Pump, and database user and privilege management. Strong software development background with C#, ASP.NET Core, REST APIs, SQL, relational data modeling and Git, enabling effective collaboration with developers on database design, application queries and performance issues.

EXPERIENCE

Database Administrator L1 - IN Solutions Global Limited

Sept 2025 - Present

- Administer and monitor Oracle 19c databases, performing health checks, storage and log monitoring, user management, roles, privileges and routine maintenance.
- Analyze SQL queries, execution plans and indexing strategies to identify performance bottlenecks and investigate problematic queries.
- Perform Oracle RMAN backup, restore and recovery operations and support disaster recovery activities to maintain data availability and protection.
- Work with Oracle Data Pump utilities including expdp and impdp for database export, import and data migration.
- Monitor availability, resource utilization, storage and operational health; troubleshoot database errors affecting application workloads.
- Work with PostgreSQL databases for health checks, backup verification, size and storage monitoring, and operational troubleshooting.

Software Developer Intern - Capgemini, Mumbai

Jan 2025 - Jun 2025

- Developed backend modules using C#, ASP.NET Core, REST APIs and SQL for enterprise application workflows.
- Designed database-driven APIs and optimized SQL queries and data-access operations to improve application performance.
- Designed normalized relational database schemas involving tables, relationships, constraints and CRUD operations.
- Collaborated with developers on debugging, API integration, application-level database issues and code changes using Git.

PROJECTS

Hotel Management System - ASP.NET Core, Web API, Angular, SQL

Apr 2025 - Jun 2025

- Developed a full-stack hotel management system supporting role-based Owner, Manager and Receptionist workflows.
- Built RESTful Web APIs using ASP.NET Core and Entity Framework Code First with layered architecture and Repository Pattern.
- Designed normalized relational database schemas and relationships for bookings, reservations, rooms, guests, staff, inventory, billing and payments.
- Optimized SQL queries and database access patterns, reducing application data-retrieval latency by 20%.

Student Grading System - Java

Nov 2023 - Dec 2023

- Developed an object-oriented Java application for managing student records and automated grade calculation for 200+ entries.

TECHNICAL SKILLS

Databases: Oracle 19c, PostgreSQL, SQL Server, MySQL

Database Administration: Database Monitoring, Performance Tuning, Query Optimization, Indexing, Execution Plans, Backup & Recovery, Oracle RMAN, Restore Operations, Disaster Recovery, Data Pump, Storage Monitoring, Log Monitoring, User Management, Roles & Privileges, Data Integrity

SQL: SQL Queries, Joins, Subqueries, Aggregations, Window Functions, DDL, DML, Query Optimization

Database Programming: Functions, Triggers, Stored Procedures, Relational Data Modeling, Tables, Relationships, Constraints

Programming: C#, Java, Python, SQL

Backend: ASP.NET Core, Web API, REST APIs, Entity Framework, Repository Pattern

Tools: Git, GitHub, Visual Studio, VS Code, SQL Server Management Studio

Concepts: DBMS, Data Structures & Algorithms, OOP, Relational Database Design, Troubleshooting, Performance Optimization

EDUCATION

Lovely Professional University, Jalandhar, Punjab

2021 - 2025

B.Tech in Computer Science and Engineering | CGPA: 7.31/10 | Relevant Coursework: Data Structures & Algorithms, DBMS, OOP, Operating Systems, Web Development

Saint Joseph's Higher Secondary School, Baramulla, Jammu & Kashmir

2020 - 2021

Higher Secondary (Science) | 85.60%
